Wintersemester 2017

Host University

My experience at the University of Urbana-Champaign in Illinois was incredibly good. The atmosphere was amazing. The professors, staff and students were all really nice and helpful. The campus, buildings and libraries offered a lot of space to study and for other activities. There was a community feeling like I never experienced it before.

Classes

Not only the professors were really nice and caring, but also the other students made my college experience here very beneficial for me. We had a lot of group discussions in all of my classes. By that I could get to know a lot of different opinions and perspectives. There are more differences between the American and European culture than I expected. I took three History classes, one class in Political Science and one Kinesiology class. All of them were very interesting and I learned a lot. We had to write papers and tests during the whole semester, so the classes kept us busy every week. But in the end this was very beneficial for us, because we gained a lot of long-term knowledge and we didn't have to study so much for the final exams. Especially the Political Science class (Introduction to Political Science) helped me a lot to understand not only the U.S.-American political system, but also basic ideas of politics around the whole world. I'd highly recommend this class.

Exams

As already mentioned there are not only the final exams but also papers and tests during the whole semester, which keeps you quite busy all the time. But it is a great way to gain a lot of knowledge. I really enjoyed my classes so I really liked this different environment of

studying. There's a long phase where you can still drop classes and pick up new one's, so you have the chance to try out classes and don't finish them if you're not that interested in them.

Fellow students

All the other students were so nice, caring and friendly. I made so many good friends and best friends that the farewell was quite hard. All the people made my stay there the most awesome semester of my life. I can't imagine seeing them everyday again and I already miss them a lot.

Accommodation

I stayed at a place called Lofts 54. It was off campus and I had three other roommates. It's possible to choose but I just picked randomly and ended up with three other girls from the suburbs of Chicago. Two of them became my best friends. We had so much fun together. The apartment was really nice and if you have any issues you can call them and they send a caretaker to fix it. We had no issues except of mold on the window, which you can remove with a special cleaner. I would choose it again because of the good location (Chalmers Street) which was close to campus and because of the big living room which allowed us to invite some people over.
