### What does the Non-EU Student Exchange Program offer?

Students of the University of Vienna are offered the possibility to participate in the Non-EU Student Exchange Program. Nominated students can spend one semester or an entire academic year at a partner university without being obliged to pay the partner university's tuition fees. The exchange student will have a **no-fee/non-degree status**.

The University of Vienna offers **university-wide agreements**, which are available to all students of all departments of the University of Vienna. Moreover, there are also **departmental agreements**, which are available to students of the respective field of study and the specific department that negotiated the agreement. A list of all university agreements is available on our website: →<http://non-eu-exchange.univie.ac.at>. **In order to find out if the students' favored courses are offered by the partner university, the students need to check with the partner university's course catalogue.**

Nominated candidates receive a grant from the University of Vienna. **These grants are not cost-covering, but are intended to help students to deal with their increased living expenses during their stay abroad.**

**Recipients of the Austrian study grant Studienbeihilfe** can receive their study grant payments during the stay abroad. Moreover, they are entitled to apply for **additional financial assistance (study grant abroad)**. For further information and application details, please contact the *Austrian Study Grant Authority Studienbeihilfenbehörde*: Gudrunstraße 179 a, A-1100 Wien, Tel.: 01/601730, →<http://www.stipendium.at/stbh>.

### Choice of Universities

Applicants are basically free to choose the university and the term during which they would like to study abroad. **However, in view of the limited number of available places, students are advised to list alternatives in the application (they can choose up to 3 universities)**. The choice should be determined by courses offered by our partner universities that are relevant to the student's field of study at the University of Vienna.

Students of all fields of study are eligible for the Non-EU Student Exchange Program. **However, please note that not all subjects are offered on an undergraduate level in American and Australian universities** (such as law in the USA, medicine/pharmacy in the USA and in Australia) within the scope of our program. ## Accommodation

Candidates have to make their own accommodation arrangements. However, in the course of the application procedure, the partner university will send you application forms for halls of residence as well as information on private accommodation options.

Our experience has shown that, at least in the USA, halls of residence are very expensive compared to Austrian standards. Therefore, most students live off-campus. If you are interested in private accommodation, you are advised to start looking for options in good time (min. 3–4 weeks before the start of your exchange). Relevant information will be sent by the partner university and can also be found in the **reports (Erfahrungsberichte)** of former exchange students. Reports from the academic year 2015/16 on are available online on our website. Older reports are available at the International Office.
